

Etihad Trade Risk disclosure

High-risk investment:

FX / Contracts for Forex trading based on margin involves a high degree of risk and may not be suitable for all investors Use. The upper boundary of the trading can work against you as much as it can work to your advantage. You must, before making a trading decision in any of these products should, carefully consider your investment objectives, level of experience and ability to risk. It is likely to sustain a loss of some or all your initial investment. Therefore, you should invest only to the extent that you can afford to lose money. You must be fully aware of all the risks associated with trading using margin, and seek advice from an independent financial advisor if you have any doubts. All accounts use margin. Customers must maintain a sufficient amount of marginal cover to keep their financial positions; if the cover center decreased 10% of the used margin, activation process will be asked to cover. The investor is responsible for maintenance of a margin of a sufficient level.
